Dear Parent,

As you may be aware Delhi and NCR are battling with extreme high levels of air pollution which peaks every year during the Diwali season.

The harmful gases produced by the bursting of crackers such as Nitrous Oxide remain in the air for a long time inhaling the fumes emitted by fire crackers increase the chances of asthma, smog leading to various other problems.

In compliance to the Guidelines issued by the Hon'ble Supreme Court, it is requested that you as a Parent discourage your ward from purchasing and burning crackers and counsel them regarding their harmful effects.

Wishing You a Happy, Safe and Non-Polluting Diwali

Principal
