

SESSION 2016-17

CLASS-III

ENGLISH

The English course aims:

To develop in learners the four basic skills-listening, speaking, reading and writing in graded manner. To enable them to use English for day to day communication in academic and social situations. To develop, nurture and enrich their vocabulary. To provide a sound knowledge of English language and the ability to apply it in spoken and written communication. To equip them with the skill and abilities required for learning on their own with a view to promoting learner's autonomy.

VALUE EDUCATION

In this fast paced and competitive world, conflicting values and moral dilemmas have become all too common in our daily lives. This often leaves a child confused and imbued with a sense of inadequacy in facing life situations. We therefore need to ensure a curriculum and an ambience which enable a child to think right, to feel the right kind of emotions and to act in desirable manner.
